

## Mini beast hunt

 <p>A Woodlouse, hiding under some leaves or underneath something</p>	 <p>A slug hiding under something in the dark and damp</p>	 <p>An earth worm under the ground in a damp area</p>
 <p>A bumblebee looking for pollen, buzzing around</p>	 <p>A snail, hiding behind a brick or branch out of the sunshine</p>	 <p>A ladybird exploring on the plants or in the grass in the sunshine</p>
 <p>A shield bug hiding on a leaf</p>	 <p>A garden spider hiding in the grass or under a bush.</p>	

Did you find any other animals?

Chose one animal to take a photo of as near as you can (or using the magnifying glass). Can you notice all the body parts? How the legs join to the body, if its all one body or in two parts.

Can you draw an accurate picture of the animal?
